Most likely, Reverend White's ramblings were as greasy with sentiment and oily with irrational

optimism as were his daughter's paintings, so Junior was in no hurry to learn the name of the radio program or to write for a transcript of the sermon. "Too bad. You might have used that to bargain with." He was no longer hopeful that they could have a future together. After sampling the Junior Cain thrill machine, Celestina would want more, as women always did, but the time for a meaningful romance had now passed. For all the anguish he'd been put through, however, he deserved the consolation of her sweet body at least once. A little compensation. Payback. Sitting forward in his armchair, Obadiah lowered his hands to his knees, and in thoughtful silence, he stared at them. Once, he had been a superb driver. For the past decade, his performance behind the wheel depended on his mood. At worst, Vanadium might begin to wonder if Junior had a link to Seraphim, might uncover the physical-therapy connection, and in his paranoia, might erroneously conclude that Junior had something to do with her traffic accident. That was nuts, of course, but the detective was evidently not a rational man. Because the glass wings of the open window didn't lie flat against the exterior wall, they blocked his view. He had to thrust himself farther through the opening, until he seesawed on the sill, before he could see the length of the entire block, in which the gallery stood at approximately the middle. For breakfast, he avoided sugar. He ate cold roast beef and drank milk laced with a double shot of brandy. Only madmen were capable of such butchery. Hopeless lunatics like Ed Gein, out there in Wisconsin, arrested just seven years ago, when Junior had been sixteen. Ed, the inspiration for Psycho, had constructed mobiles out of human noses and lips. He used human skin to make lampshades and to upholster furniture. His soup bowls had once been human skulls. He ate the hearts and selected other organs of his victims, wore a belt fashioned from nipples, and occasionally danced under the moon while masked by the scalp and face of a woman he had murdered. or the barber. Never was he afraid to fall asleep, and having fallen asleep, he appeared to have only pleasant dreams. "Me too." He closed the ring box. Took a deep breath. Opened the box again. "Celestina, when I met you, my heart was beating but it was dead. It was cold inside me. I thought it would never be warm again, but because of you, it is. You have given my life back to me, and I want now to give my life to you. Will you marry me?" "I'll always know your face," he promised. "Even if you have to go away and you're gone a hundred years, I'll remember what you looked like, how you felt." Agnes was not fully aware of how she was lifted from the car, but she remembered looking back and seeing Joey's body huddled in the tangled shadows of the wreckage, remembered reaching toward him, desperate for the anchorage that he had always given her, and then she was on the gurney and moving. BARTY TODDLED, Barty walked, and ultimately Barty carried a pie for his mother on one of her delivery days, wary of his balance and solemn with responsibility. Phimie must be honored now with laughter instead of with tears, because her life had left Celestina with so many memories of joy and with joy personified in Angel. To fend off tears, she said, "Listen, Clark Kent, we women need our little secrets, our private thoughts. If you can really read my heart this easily, I guess I'm going to have to start wearing lead brassieres." "dent? You do believe that? Because I don't see ... I don't know how could work with someone who thought I was capable of . . ." Angel raised her attention from the salt shaker to Tom's face, studied his scars for a moment, and said, "No." He returned to the house and extinguished the three blown-glass oil lamps on the living-room coffee table. Out, as well, the silk-shade lamp. At the foot of the bed: a cedar chest. Four feet long, two feet wide, perhaps three high. Brass handles. Maria arrived early, expecting to assist with final details in the kitchen. Though honored to be a guest, she wasn't able to stand by with a glass of wine while preparations remained to be made. Vanadium flipped the quarter straight into the air and at once spread his arms, palms turned up to show that his hands were empty. "That's unusual, too, and I wish the etiology of this disease, which is exceedingly well understood, gave us reason to hope based on the transience of the symptoms ... but it doesn't." "You figure all this," Jolene asked, "because Mother Nature gives us a nice warm day in January?" Her awful sense of weightlessness became something much better: buoyancy, an exhilarating lightness of spirit. Fear remained with her-fear for Barty, fear of the future and of the strange complexity of Creation that she'd just glimpsed-but wonder and wild hope now tempered it. Instinctively, he knew he should not give massages to Negroes. He sensed that somehow he would be physically or morally polluted by this contact. Nevertheless, when the points of soreness in his brow and cheeks gradually grew worse, he stopped at a service station near Courtland, bought a bottle of Pepsi from a vending machine, and washed down yet another capsule of antihistamines. He also took another antiemetic, four aspirin, and-although he felt no trembling in his bowels-one more dose of paregoric. The upper shelf of the closet held boxes and two inexpensive suitcases: pressboard laminated with green vinyl. He took down the suitcases and put them on the bed. Hunched over his desk, leaning forward conspiratorially, his piggy eyes glittering like those of an ogre discussing his favorite recipe for cooking children, Nolly said, "I've been able to confirm your suspicions. He had not heard the lawman rising up with malevolent intent, as he had imagined. The body had simply rolled off the backseat onto the floor during the too-sharp 180-degree turn. Earlier, after sprinting down the fire road, he had been breathing hard when he reached his Chevy, and by the time that he'd raced to Spruce Hills, the nearest town, he had spiraled down into this strange condition. His driving became so erratic that a black-and-white had tried to pull him over, but by then he was a block from a hospital, and he didn't stop until he got there, taking the entry drive too sharply, jolting across the curb, nearly slamming into a parked car, sliding to a stop in a no-parking zone at the emergency entrance, lurching like a drunkard as he got out of the Chevy, screaming at the cop to get an ambulance. He was immensely weary, limp. He felt oppressed, as though a great weight were piled on him. Even keeping his eyes open was tiring. "I'm saying, for all I know." She took her hand off his thigh. "What's all this about Celestina, anyway?" "Mrs. Lampion, in a case like this, I've found that the greatest mercy is directness. Your son has retinoblastoma. A malignancy of the retina." after he is rolled onto his back by his father, now, here, roses by the fistful jammed in his face, crushed and ground. He first eased from aisle to aisle, but soon moved more quickly, convinced that the singer would be found beyond the next turn, and then the next. Was that her trailing shadow he had glimpsed, slipping around the corner ahead of him? Her womanly scent lingering in the air after her passage? All the way to the nightstand, he expected to discover that the revolver had been taken from the drawer. Yet here it was. Loaded. He said this as though confident Agnes would understand what he meant, with a smile and with a glint in his eyes that almost became a wink, as if they were members of a secret society in which these three repeated words were code, embodying a complex meaning other than what was apparent to the uninitiated. When he passed by his own lunch plate on the counter and again saw the quarter gleaming in the cheese, he spat out a curse. He had difficulty picturing the detective pattering in the garden on weekends. Unless there were bodies buried under the roses. 2000, the Year of the Dragon, gives way without a roar to the Year of the Snake, and after the Snake comes the Horse. Day by day the work is done, in memory of those who have gone before us, and embarked upon work of her own, young Mary is out there among you. For now, only her family knows how very special she is. On one momentous day, that will change. Taking her silence for assent, Tom continued: "Your father is gone

from here, gone forever, but he still lives in other worlds. This isn't a statement of faith alone. If Albert Einstein were still alive and standing here, he'd tell you that it's true. Your father is with you in many places, and so is Phimie. In many places, she didn't die in childbirth. In some worlds, she was never raped, her life never blighted. But there's an irony in that, isn't there? Because in those worlds, Angel doesn't exist-yet Angel is a miracle and a blessing." He looked up from the city to the woman. "So when you're lying in bed tonight, kept awake by grief, don't think just about what you've lost with your father and Phimie. Think about what you have in this world that you've never known in some others-Angel. Whether God's a Catholic, a Baptist, a Jew, a Muslim, or a quantum mechanic, He gives us compensation for our pain, compensation right here in this world, not just in those parallel to it and not just in some afterlife. Always compensation for the pain ... if we recognize it when we see it." "That's just ... an old joke," she heard herself saying, as from a distance. "You didn't really walk between the drops?". For the past two days, Junior had eaten only binding foods, and late this afternoon, he had taken a preventive dose of paregoric, as well.. "Poker." Keeping his hands high, like a penitent confessing sin at a revival meeting and asking God to wash him clean, Obadiah said, "My specialty was close-up magic. Oh, I pulled a rabbit out of a hat more than once, silk scarves from thin air, doves from silk scarves. But close was my love. Coins, but mostly ... cards.". Junior intended to pack only a single bag, leaving most of his clothes behind. He could afford a fine new wardrobe.. He moved from a crib to a bed of his own, with guardrails, months ahead of the average toddler. Within a week, he requested that the rails be left down.. As luck would have it," the nun said, "Dr. Lipscomb was in the when it happened. He'd just delivered another baby under. Thereafter, he was repelled at the prospect of kissing her, and their relationship fell apart.. The second medic wheeled the gurney to the rear of the van, calling for one of the policemen to accompany him to the hospital. Apparently, he needed help if he was to deliver the baby and also stabilize Apes while en route.. He paused, giving them a chance to ask the obvious question-and then smiled at their reticence.. She looked down at her clasped hands. Made for work, these hands, and always ready to take on any task. Strong, nimble, reliable hands, but useless to her now, unable to perform the one miracle she needed. "Barty's birthday is in eight days. I was hoping. . .". He didn't realize he was swinging the candlestick at Vanadium's face until he saw the blow land. And then he couldn't stop himself from swinging it yet once more.. This momentous day, he thought, and he shook with sudden terror at the inevitability of new beginnings.. Of course, Angel might have been playing around with the talking book. Or, even though she'd left the dolls downstairs, she might have been filling the time until Barty's return by having a nice chat with Miss Pixie and Miss Velveeta. She had other voices, too, for other dolls, and one for a sock puppet named Smelly.. Frowning, Panglo, said, "Terrible, you're right, so many terrible things happen, but I don't see why trains-". A dry laugh escaped the detective, but it had none of the warmth of most people's laughter. "You're not bad, Enoch. You're just not as good as you think you are.". In the execution, he was likewise scrupulous, for he didn't want the grownups to see what Angel saw; he preferred they believe it was sleight of hand-or magic. After the usual moves, he briefly closed his right hand around the coin, then with a snap of his wrist, flung it at Angel, simultaneously distracting with flourishes aplenty.. Shivering, Junior slammed the trunk lid and warily surveyed the lonely landscape. Black pines spread bristled arms through the chary night, and the moon cast down a jaundiced light that seemed to obscure more than it illuminated.. Vanadium couldn't know the whereabouts of the quarter. Besides, even when he'd swung the lunch tray over Junior's lap, the detective hadn't been close enough to pick the pocket of the robe.. If the ace of diamonds, in quartet, must be taken seriously, then why not the rest of the draw?. excited, shrieking. Branch to branch, the flapping of wings is leathery, demonic. The only other sounds are the thud. Even when he saw no cop cadaver, no ghoulish grin, no two-bit eyes, Junior was not immediately relieved. Warily, he circled the car, expecting to find the detective crouching and poised to spring.. One of the most unnerving aspects of life in southern California was that earthquake weather came in so many varieties. As many days as not, you got out of bed, checked the sky and the barometer, and realized with dismay that conditions were indicative of catastrophe.. Averting his eyes from Vanadium's face, Junior moved farther up the stocky body. He folded back the tweed sports jacket to reveal a shoulder holster.
